LINKDIN LICENSES AND CERTIFICATIONS

• HTML ESSENTIAL TRAINING

• ORACLE DATABASE 12C: BASIC SQL

• GIT ESSENTIAL TRAINING

TECHNICAL SUMMARY

- CORE JAVA
- HTML
- CSS
- GIT
- SQL

CORE JAVA

- Classes and Objects
 - Variables, Methods, Constructors, Static and Non-Static blocks
 - OOPs(Inheritance, Polymorphism, Abstraction, Encapsulation)
 - Final and This keyword, This()
 - Normal, Abstract classes and Interfaces
 - Exception and Exceptional Handling(try-catch, finally, throw, throws)
 - String, StringBuffer, StringBuilder, StringTokenizer
 - Wrapper Classes
 - Inner/Nested Classes
 - File IO(Streams, Reader and Writer, Buffered Streams and Buffered Reader and Writer, Serialization and Deserialization) and Scanner
 - Access Modifier and Packages
 - Arrays and Collections
-

EDUCATION

**B.E-Computer Science and Engineering, DYP CET-Kolhapur
Shivaji University | 2022**

HSC-Science, K.H.College-Gargoti | 2017

SSC, Antiwade HighSchool Antiwade | 2015

PROJECTS

Implementation of Mathematical Iteration :

A System is developed for calculating mathematical iterative methods like Newton Raphson method, Bisection Method, Secant Method and RK method.

Technologies : C programming language

Gadhinglaj City :

A website is developed for getting information regarding the city of Gadhinglaj , information regarding what kind of colleges are there, tourist places, sport clubs, hospital list.

Technologies : Html, CSS, XAMP Server, MySQL
